TECHNICAL SKILLS

Programming Languages: C++, Java, Javascript, python

Frontend and Backend: HTML, CSS, TailwindCSS, React

Databases: SQL, MongoDB, Firebase, Supabase, Mysql

Technologies/Frameworks: Git, GitHub, Canva, Figma

SUMMARY

- Innovative Web Developer with AI expert and data analyst hands-on experience in building responsive, data-driven, and intelligent web applications. Skilled in React, Node.js, MySQL, and Python, with a strong foundation in AI/ML tools, data analytics, and cloud technologies. Adept at designing scalable solutions, optimizing performance, and integrating smart features to enhance user experience.

EXPERIENCE

Web Development Intern – AcmeGrade Remote

May 2024 – July 2024

web Developer | LLMs, Design module,

- Developed and maintained responsive, **user-friendly** frontend web applications. Collaborated with cross-functional teams to resolve interface issues and optimize **client-side** application performance. Ensured mobile-responsive layouts and cross-browser compatibility.

bootcoddng PVT Limited | Java Intern

Aug 2024

Learnig oops with logical thinking

- Applied Core Java concepts including OOP, exception handling, and data structures.
- Assisted in designing AI models for data analysis projects Completed mini-projects to enhance coding discipline and logical problem-solving.
- build the predictive project using **HTML**, **Tailwind CSS**, **Java** and Practiced disciplined agile coding methodologies and collaborative analytical problem-solving

Smart India Hackathon (SIH) | Tourism Project ([certificate](#))

Sept 2022 – July 2024

Developed software applications using Python React and Node.js | Figma, FrontEnd

- Collaborated with a team of 4 developers to build a scalable full-stack website with optimized APIs and database performance.
- Strengthened **teamwork, leadership, communication, and presentation skills** by coordinating tasks

PROJECTS

NAKSHA – AI-Powered Travel Platform| React, Node.js, MongoDB, API

- Developed a full-stack AI-powered travel platform that featuring destination discovery, hotel and local guide bookings, and AI-driven personalized travel planning.
- Designed responsive user interfaces and implemented sustainable tourism features, including a Green Travel Dashboard and rewards system, to enhance user engagement and travel experiences.

Student Data Management Sytem | HTML, Tailwind CSS, Vanilla js, LocalStorage

- develope The Engineering College SMS is a static website project that comprises multiple modules, including student profiles, faculty directories, attendance tracking, grade management, and course catalogs.
- My goal is to create a centralized hub that enables easy access to vital information, promotes transparency and fosters a sense of community within the college.

EDUCATION

Bachelor of Engineering in Information Technology (B.TECH)

July 2026 – Active

Priyadarshini Bhagwati college of engg (Tier-2)

– 8.00 CGPA

Higher Secondary School (12th)

May 2020 – June 2021

Lok Jeevan jounior college, bela

– 61.67%

Secondary School (10th)

Sep. 2018 – June 2019

lok Jeevan college bela

– 91%

CERTIFICATES / EXTRACURRICULAR

- Cisco Certified Python Developer:** ([my badge](#))
- Google Gemini AI Developer:** web development with ai tools [Certificate](#)
- Other Certificate:** Gained valuable experience in [AWS DATA-Engg](#) and [TCS Soft Skill](#), [Data Science Cerificate](#) courses.
