SUMMARY

Innovative Web Developer and AI expert with hands-on experience in building responsive, data-driven, and intelligent web applications. Skilled in React.js, Node.js, MySQL, and Python, with a strong foundation in AI/ML tools, data analytics, and cloud technologies. Adept at designing scalable solutions, optimizing performance, and integrating smart features to enhance user experience.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Figma (UI/UX Design)
Backend: Node.js, Express.js, MySQL
Proficient in MySQL and Python development
Other Skills: Project Management, Problem Solving, Team Collaboration

CERTIFICATIONS

Cisco Certified Data Analyst – Data visualization & insights

AWS Data Engineer (EduSkill) – Cloud data pipelines & analytics

AI and Machine Learning Certificate

Google Gemini AI Developer Program

Web Development (React, JavaScript, HTML, CSS)

UI/UX Design with Figma – Prototyping & wireframing

EDUCATION

NAGPUR UNIVERSITY

Priyadarshini Bhagwati College of Engineering, RTMNU | 2023 – 2027
Bachelor of Information Technology
Last Semester SGPA: 8.01

HSC (Higher Secondary Certificate)

Lok Jeevan Junior College, Bela | 2022 – 2023

EXPERIENCE

Web Development Intern – Acmegrade Remote | 2024

Develop and maintain user-friendly web applications
Collaborate with cross-functional teams to enhance system performance

Java Intern – Bootcoding

Applied Core Java concepts including OOP, exception handling, and data structures.

Assisted in designing AI models for data analysis projects
Completed mini-projects to enhance coding discipline and logical problem-solving.

Web Developer – Academic & Virtual Projects

Built full-stack web applications using React.js, Node.js, and MySQL.

Developed software applications using Python and Node.js
Conducted code reviews and implemented best practices

PROJECTS & VIRTUAL EXPERIENCES

NAKSHA – AI-Powered Travel Platform (Academic Project)

- Developed a full-stack AI-powered travel platform using Next.js, React, TypeScript, FastAPI, Python, and SQLite.
- Built features for destination discovery, luxury hotel bookings, local guide reservations, and travel planning.
- Integrated an AI Travel Assistant to provide personalized itineraries and travel recommendations.
- Designed responsive, user-friendly interfaces to enhance traveler engagement and digital experiences.
- Implemented sustainable tourism features, including a Green Travel Dashboard and traveler rewards system.

Tata & Deloitte Data Analytics Simulations

- Completed virtual job simulations focused on data analytics and business intelligence.
- Built dashboards, performed predictive analysis, and delivered client-style reports.
- Generated actionable insights supporting data-driven decision-making

Student Management System (College Project – In Progress)

- Currently developing a Student Management System (SMS) for college administration.
- Manages student records, attendance, and academic data in a centralized system.
- Built using web technologies with backend integration, focusing on usability and data security.
- Actively working on feature implementation, testing, and performance optimization.
- Designed to support future scalability and real-world institutional use.
